Art Unit: 3727

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no antecedent for "the faces of the pack" or for "the flap running direction."

3. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. This claim is indefinite for the same reason as claim 1 because it includes all of the limitations of claim 1. In addition, there is no antecedent for "the flap or flaps formed by a hand contact." Furthermore, it is unclear what this limitation is directed to because hand contact does not form a flap. Clarification is required.

4. Claims 3-6 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim must refer back to two or more preceding claims in the alternative only. In addition, a multiple dependent claim may not depend, either directly or indirectly, from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, claims 3-6 have not been further treated on the merits.

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3727

6. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Mercer, United States Patent No. 5,015,103.

7. The remaining patents are cited to show other, similar devices.

8. Any inquiry concerning this application or proceeding should be directed to Stephen Garbe who can be reached at 703-308-1207. The examiner can normally be reached Monday-Thursday between the hours of 7:15 and 4:45 and alternate Fridays between the hours of 7:15 and 3:45.

9. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lee Young, can be reached on 703-308-2572.

10. The fax phone numbers for Technology Center 3700 are 703-872-9302 for papers filed in response to a non-final Office Action and 703-872-9303 for papers filed in response to a Final Office Action.

11. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist, whose telephone number is 703-308-1148.
